

HAMMOND MANUFACTURING™

**Die-cast and GRP
enclosures**

Features

- Die-cast aluminium alloy
- Robust
- Lightweight
- Excellent EMC performance
- Easily machined
- Sealed to IP54
- Shallow lids
- Supplied in natural finish

Technical details

- Aluminium alloy to BS1490, LM2M
- Lids secured using 4 off M3.5 x 12 Pozidriv # 2 Taptite screws
- Countersunk lid holes
- Two-piece "lap joint" construction

Thin wall

Features

- Die-cast aluminium alloy
- Robust
- Lightweight
- Excellent EMC performance
- Easily machined
- Sealed to IP54
- Deep lids
- Supplied in natural finish

Technical details

- Aluminium alloy to BS1490, LM2M
- Lids secured using 4 off M3.5 x 12 Pozidriv # 2 Taptite screws
- Countersunk lid holes
- Two-piece “lap joint” construction

Thin wall deep lid

Features

- Die-cast aluminium alloy
- Robust
- Typical wall thickness 4mm
- Lightweight
- Excellent EMC performance
- Easily machined
- Tongue and groove construction
- Integral extruded silicon rubber gasket
- Lids secured outside sealed area
- Sealed to IP65
- Through box, blind hole wall mounting outside sealed area
- Internal grounding screws fitted (some models)
- Lid grounding screws (some models)
- Supplied in natural smooth brushed finish
- Supplied in back or grey RAL 7001 powder coat

Technical details

- Aluminium alloy to BS1490, LM6
- Lids secured using 4 off recessed self-captivated stainless steel screws, M4 or M6 depending on box size
- 2 drilled and tapped M4 holes for mounting or grounding in the 1590Z110, 130 and 135 sizes
- 1 drilled and tapped M4 grounding hole in the lid of the 1590Z135 and 160 sizes
- M4 x 6 copper grounding screws supplied where required

Watertight 1590Z

Features

- Die-cast aluminium alloy
- Robust
- Typical wall thickness 4mm
- Lightweight
- Excellent EMC performance
- Easily machined
- Tongue and groove construction
- Integral extruded silicon rubber gasket
- Lids secured outside sealed area
- Sealed to IP65
- Through box, blind hole wall mounting outside sealed area
- Integral mounting shelf in base
- Internal grounding screws fitted (some models)
- Lid grounding screws (some models)
- Supplied in natural smooth brushed finish
- Supplied in black or grey RAL 7001 powder coat

Technical details

- Aluminium alloy to BS1490, LM6
- Lids secured using 4 off recessed self-captivated stainless steel screws, M4 or M6 depending on box size
- 6 drilled and tapped M4 mounting or grounding holes, three in each base area
- 1 drilled and tapped M4 grounding hole in the lid of the 1590Z119, 160, 231 and 162 sizes
- M4 x 6 copper grounding screws supplied where required

Features

- Moulded from glass reinforced polyester
- Robust
- Typical wall thickness 5mm
- Lightweight
- Excellent chemical resistance
- Easily machined
- Tongue and groove construction
- Integral neoprene rubber gasket
- Lids secured outside sealed area
- Sealed to IP65
- Through box, blind hole wall mounting outside sealed area
- Integral mounting shelf in base
- Internal moulded-in mounting nuts in base
- Supplied in natural finish

Technical details

- Moulded from glass reinforced polyester
- Lids secured using 4 off recessed self-captivated stainless steel screws, M4 or M6 depending on box size
- 6 M4 mounting nuts moulded into the base

Watertight 1590ZGRP

Features

- Factory modified to your specification
- Fast prototype turnaround time
- Economical for pre-production, start-up and production quantities
- Machining
- Silk screening
- Hot stamping
- Special colours
- Custom materials
- Custom kitting and packaging

Technical details

- Easy quotation request and order procedure
- Download the full size drawings from our web site www.hammondmfg.com
- Download the AutoCAD files from our web site www.hammondmfg.com
- Mark up the drawings or amend the AutoCAD files
- email your files to the address on the rear cover
- Receive your quotation
- Place your order
