

## **1-channel SAW RF transmitter**

### **Model: TX-1C-5026**

#### **Technical Specifications:**

- 1- Encoder: 145026
- 2- Encoder clock frequency: 1.7 KHz
- 3- Code programming: 8 tri-state switches
- 4- Available frequency: 433.92 MHz obtained by means of a SAW resonator
- 5- Modulation: OOK (On-Off Keying)
- 6- Effective radiated power: 3mW (5dBm  $\pm$  2 dB)
- 7- Powered by 12V miniature battery (V23A)
- 8- Typical consumption: 10mA (25mA max)
- 9- Led for transmission signaling
- 10- Shock-resistant box
- 11- Dimensions: 75 x 43.5 x 18.5 mm
